

Submitter: Susan Hartford  
On Behalf Of:  
Committee: House Committee On Housing and Homelessness  
Measure, Appointment or Topic: HB2400

My input re. these issues:

No: On houses built for resale on our farm and forest lands (HB 2400)

No: On disorganized, haphazard upzoning of rural lands to create sprawl from the outside in (HB 2422)

No: To sprawl development on precious public lands, with extensive infrastructure costs billed to the state (HB 2316)

Yes: To smart growth inside cities and towns, where infrastructure costs are lower and where people can best access schools, jobs and services.

As a 68 year resident of Oregon, I hope that the state's land use legislation is upheld. These protections are what have so greatly contributed to making this state such a very special place.

Thanks!!
