

To whom cares about the future of this beautiful state,

Please stop making a dire situation, worse. The homeless crisis is already at the forefront of many peoples heartaches with this state and this HB will only make a bad situation, terrible. But let's be honest; you already know this and are pursing anyway despite the very obvious public opposition. Please, please stop putting your destructive agenda before your commitment to support the people you swore to represent.

Sincerely,  
Paul D.
