On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB2984

There are tent communities everywhere. Rent has doubled in just over a year. We need housing now not studies. I suggest the government purchase older apartment buildings and put homeless people in them at 30 percent income rent control and no requirements for credit or unreasonable fees except proof of income so we can get them off our streets and private property. Waste of time and money doing studies you should have done 2 years ago. This is an emergency and public health situation since they don't have bathrooms.
