Dear Committee Members,

I support this bill. For seniors on a fixed income, it would make it more affordable for them to stay in their own homes, and enable them to pass that home to their children. For people who have worked hard all their lives to buy a home, many of them just getting by, to loose it because they can't afford the taxes is really sad. Some may say that it's not a lot of money, but think of someone who has been retired for 25 years. I know the taxes on my house have at least doubled in that time. For most people, retirement income does not.

Please vote yes on HJR 1.

Thank You,
