

Submitter: Nancy Holmes  
On Behalf Of:  
Committee: House Committee On Climate, Energy, and Environment  
Measure, Appointment or HB2961  
Topic:

I support this bill to increase percentage of electrical service capacity for electric vehicle and charging stations, it is remarkably easy to do the smart things to accommodate these charging stations making a significant difference in the quality of air we breathe to keep us healthy and our planet healthy. We heed this, please vote yea on HB 2961. Thank you.
