

In support of Camera bill SB 134

Dear Chair Gelser Blouin, Vice Chair Linthicum and Members of the Committee

One morning, my Mother was found on the floor with a big lump over her eye. The Rawlin claim that they conduct overnight welfare checks but CLEARLY they did not this particular night.

Several Rawlin Staff told my Big Sis that the camera was too intrusive yet when my Mom was taken to the ER they called my Sister to check camera footage of the previous night to give the Doc pertinent info such as WHEN did it happen and HOW did it happen? How ironic!

My Mom died on March 5, 2024. She was 91 and suffering so actually a Blessing. Thanksgiving and Christmas were different. I'll probably remember her every March 5th but I will choose to remember all the good stuff.
