

Submitter:

Shauna McKain-Storey

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure, Appointment or Topic: HB3145

HB 3145 would advance the development of innovative housing construction materials and methods in Oregon, making it more likely that housing could be built and sited quickly, especially housing for people with moderate and lower incomes. Due to the current homelessness crisis in our state, which could definitely get worse due to impending federal changes, as well as a longstanding shortage of housing for working class and poor Oregonians, I strongly support this bill, and I hope you will, too. Thank you.
