

Submitter: Sarah Kelley  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB3414

Land Use Goal 14 is vital to the long term livability and sustainability of Oregon. There is always going to be developers pushing for easy development opportunities. But sprawl is sprawl. Los Angeles did not start out the way it has come to be. Open space is vital to societal harmony. And Oregon's open space is among the most beautiful and bountiful in the world. Don't allow to be covered for the benefit of developers.
