

Submitter: Gregg Russell

On Behalf Of:

Committee: House Committee On Rules

Measure: HB3414

Oregon land use laws or put into law to help prevent massive sprawl like in many other cities across the country. Oregon must pave the way to enforce current land, use laws and prevent cities from going beyond the urban growth boundary.

King City is an excellent example of urban growth sprawl for 3600 new homes within a one and a half to one half mile radius.

Putting the road through the Columbia Land trust conservancy is both a financial and environmental disaster so close to the Tualatin River.

Do it the right thing and oppose this legislation? Do it the right thing and oppose this legislation?
