

Submitter: Elisabeth Blizzard  
On Behalf Of:  
Committee: House Committee On Rules  
Measure: HB3414

Dear Committee Members,

I strongly oppose HB 3414. At a time when our state needs more affordable housing, allowing jurisdictions to expand the UGB works against efforts to provide more affordable housing within current UGBs. We do not need more, expensive housing further from existing communities; we need local authorities to put effort into using available land that is already designated for development.

Thank you for your consideration.

Respectfully,  
Elisabeth (Meeky) Blizzard
