

**HB 2488 Testimony for hearing on Monday, March 8, 2021 at 1pm:**

Dear Chair Marsh, Vice-Chairs Helm and Smith, and Members of the House Committee on Energy and the Environment,

Now is the time to move forward with long-needed reforms to our statewide land use planning goals. If our State is to adequately confront the 21st Century challenges presented by the climate crisis and systemic environmental racism, then we need a 21st Century planning system that is up to the task.

I strongly support the passage of HB 2488 to update Oregon's Land Use Planning System to address climate change, environmental justice and equity in the planning system in a holistic and integrated manner, which is the only way to prevent climate responses from reinforcing existing inequities.

I also urge the members of the House Committee on Energy and the Environment to indicate their support for the recommended budget of \$800,000 to both initiate and finish the adoption of a new Goal 20 for Equity and Climate in this biennium. There is positive forward movement in securing funding in that the Department of Land Conservation and Development included \$800,000 in Package 90 for Equity Initiatives as part of their proposed agency budget (see SB 5530). In addition, in order to provide adequate technical assistance to underserved rural communities and smaller cities and counties, a recommendation from the House Energy and Environment Committee for additional funding allocations would be appreciated.

HB 2488 will guarantee climate and equity-responsive land use planning by Oregon's local governments and ensure that Oregon is prepared for the unique challenges of this century.

Thank you for considering my comments and creating an equitable and climate-smart future for Oregon.

Sincerely,

Lin Woodrich
