

Submitter: Cortnee Moseman

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

To who it may concern,

I ask that you please reconsider this bill. No one wants anyone to be homeless or criminally prosecuted for things they cannot control. However, there are better ways to help people struggling with homelessness. This bill will harm our community in so many ways. Our parks are already flooded with trash, needles, feces, and so much more. Our children are not safe to play at the playgrounds and our city has spent countless dollars in attempt to clean up the mess. There are better ways to address the root cause of homelessness that do not hurt our environment and community.

Oregon is a beautiful place to live, please help it stay that way.
