Measure, Appointment or Topic: SB684

I now live in the Reed neighborhood, but i grew up in a mixed income neighborhood and was so lucky for that experience. Probably because it was mixed income, it was also racially mixed. The diversity in that neighborhood made me a better person, more accepting, more open to new things, more welcoming. I really miss that neighborhood. I wish my children had had that same experience.
We need more housing in our state. We need more integration with all types of people. Please support this bill so we can have richer experiences and everyone can feel welcome. We need innovation in the financial sector so we can do new and better things in the housing sector.
