Measure, Appointment or Topic: HB3144

I support HB 3144, which would stop private bans on mobile homes and extend a program to fix conflicts in marinas and mobile home parks, prohibit new recorded instruments or governing documents of a planned community from banning the siting of manufactured dwellings or prefabricated structures, and extend the sunset for Housing and Community Services Department grants for certain low-income facility tenant dispute resolution services. All of these elements in the bill seem to support the building or preservation of affordable housing in Oregon which has chronically been in short supply. If we ever hope to decrease the crisis of homelessness in our state, actions like this are needed. I hope that you will consider the needs of everyday Oregonians and support this bill. Thank you.
