Committee: House Committee On Climate, Energy, and Environment

Measure: HB3166

Dear Chair Marsh vise chair Levy and members of the Committee, I strongly support measure 3166. So often when there are programs to hope citizens the very people who need them most are not sophisticated enough to receive these benefits. A one stop shopping type site will help seniors and low income people navigate what benefits they are eligible for so that they won't be left out when these benefits are available. Thank you for listening to citizen input.
