Committee: House Committee On Housing and Homelessness

Measure, Appointment or Topic: HB3644

We have wasted billions of dollars already trying to figure out how to manage the homeless problem in our state. We need to figure out what to do about the drug trafficking problem and rehab that works before solely throwing money at housing. We do not need more money. We need thoughtful, knowledgeable people spending the money they have. We have basically created a new industry that recipients will not want to see go away. They will continue to ask for more and more.
