

Submitter: Caleb Pop  
On Behalf Of:  
Committee: Senate Committee On Human Services  
Measure: SB1591

I am supporting this cause because I believe this will help all parties. It will help the government find locations for the elderly also helping the hospitals free up space. It will help the economy overall. Most of all it will help the elderly themselves. The care we provide is very self centric. A hospital is unable to take care of the resident due to so many other needs with higher priorities. With adult care homes we are with them 24/7 having activities and growing a relationship like someone who sees them everyday it also gives them a better lifestyle to be in a home and feeling like this is where they belong rather just being in a hospital.
