Measure: HB3501

I oppose HB 3501, Oregon's Ludacris bill being proposed also being referred to as "Right to Rest."

When I first read about it in an article I thought to myself, this has to be a sick joke. What's the point in owning any property if the government will not only give others permission to use it as they please, but essentially take it away from you and fine you for asking people to vacate the premises? As it is property taxes just continue to increase while city officials and people in position of power misuse and launder the people's hard earned money. Services aren't available. I don't feel safe living in Portland anymore.

If this bill passes it will be the last straw for me and I will move out of the area, if not the state. This bill is insulting and should never have ever been brought this far.
