

Submitter: Derek Becker

On Behalf  
Of:

Committee: Joint Committee On Ways and Means Subcommittee On  
Transportation and Economic Development

Measure: HB5019

Members of the Committee,

Do you think for one moment that passing a blank check is a good idea? We, the taxpayers of Oregon, object to your attempt to confiscate even more of our hard earned money to be spent in unknown amounts on your cause d'jour. Then, adding a emergency clause without delineating the emergency, is unconscionable. Our form of government is not a totalitarian form of government and we, the people, are the employers and you, the legislators, work for us. We have a Constitutional right to know how our money is being spent.

Respectfully
