

Submitter: Jane Maute  
On Behalf Of:  
Committee: Senate Committee On Housing and Development  
Measure: SB1537

I do not think the sb 1537 should pass as is because i think the bill is being hurried thru. I also do not think it will address the needs of affordable housing for those surviving on less than \$50,000 per yr. I think the cost for housing will just keep going up. I think its going to just benefit more of upper midfle income people and will take away from crucial wildlife habitat as well. There are many places that can be filled in with housing so that people can live closer to transportation and amenities that are already in place.
