Committee: Senate Committee On Housing and Development  
Measure, Appointment or Topic: HB3054

I'm so thankful to see HB 3054 crafted. Many people in manufactured homes are Elders who are sick or just trying to survive on social security.

Oregon says it has a housing crisis, what is meant by this?

If Lawmakers don't want roaming house less people viewed by Home owners, Lawmakers can pass Bills Like HB 3054 that stabilize living in a home.

Housing is NOT a want! It IS a need and Should become a right of all People in Oregon. Stop making it easy for wealthy individuals to profit on this human right.

HB 3054 Will help the housing situation immensely. Huge Thanks for what I hope is passage. Keep voting as if You understand what terrible things are in place that work against housing as a himan right and a real need not just simply wealth or an asset. As those in Ireland have said, "My home is NOT Your Asset"

We must begin to move that way!
