Measure: HB4026

I oppose HB 4026. Voter access in the State of Oregon is not the problem, unless you do not have an address. Voter accuracy however, does appear to be a problem. There are no regularly scheduled removals for death, moving, and other situations that might take a voter out of the mix. I believe that it was offered to the State of Oregon about 4-5 years ago, to be given, by the Federal Government, the access to assess accuracy, which was declined by the Governor.
