

Submitter: Dianne Ensign

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or HB2961  
Topic:

I support HB 2961 because I care deeply about protecting the environment. I do not own a car or drive, but for those who must drive, electric vehicles are a less harmful option. With a new regime that is openly hostile to environmental protection and electric vehicles, we need to do whatever we can personally to push back against the path to ecocide that we're currently on. This bill will open up the possibility of owning an EV to a large swath of our population who currently cannot access home-charging.
