

Submitter: Tammy Pedersen

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB1076

Senate Committee on Health Care,

My name is Tammy Pedersen.

Being a mother of a person with a brain disorder, I support SB1076.

This is an act of compassion and hope for those who, in their time of crisis, need their very basic human needs, (housing, food, and kindness) met.

While I know there will be challenges stemming from such a passage, I also feel that it is this level of support and care that can and will become a bridge closing the gap for the needs of the patient while providing time for caring family and friends to locate and secure alternate resources for their loved one.

Please pass SB1076

Respecfully

Tammy Pedersen
