Committee:

House Committee On Commerce and Consumer
Protection

Measure, Appointment or

HB2141

Topic:

I am an Asian registered architect in Oregon.

I am writing to support HB2141 because during my 10 years of professional practice working in all types of architecture projects, I had witnessed that the professionalism interior designers had demonstrated in systems and structure, and strong ability in coordinate with professional consultants to complete commercial projects.

We are living in a community that interior designers are predominantly women.

Commercial interior designers equipped with professional knowledge deserves to be considered as professionals, and licensed like an Architect. This would help to narrow the pay gap between men and women in the design field.
