Business IDA opened in 2022

"The IDA .program offered the financial training for the business owners and a chance, by saving money at the IDA account, get cash match at the end to support the business. COVID-19 took my husband's life. I needed to learn how to manage the business by myself. IRCO and the IDA program gave me an opportunity to run the business and support my family.

I learnt a lot from the IDA supportive materials.

The IDA helped me to get supplies for the business when I was struggling and couldn't afford it and was afraid to lose my business."
