I am 79 years old and a widow, when I bought in to park the rent was reasonable and thought I could live out my life here but Common Wealth came in raised rent constantly and on top of that makes us pay the water sewer garbage cable. If this continues I will be homeless, as my social security will not be enough income.. The governor allows utilities to go up and so Oregon is telling us they don't want us to survive or thrive. I feel constantly worried about the attacks on every aspect of life. With the threats of losing income due to cuts in social security I worry every minute of every day.
