

Submitter: Eric Peterson  
On Behalf Of: Everyone who enjoys parks without heroin needles  
Committee: House Committee On Housing and Homelessness  
Measure: HB3501

Parks will cease to be parks and be converted into permanent homeless encampments. Most of the parks built in my area can't be enjoyed due to scattered hypodermic needles and the smell of human feces. This shifts the burden of a national homeless problem onto local residence and small towns. It's easy to see the incentive structure this creates. Prepare for a mass exodus of tax paying residence from the state.
