

Submitter: John Allcott  
On Behalf Of:  
Committee: Joint Committee On Semiconductors  
Measure: SB4

Dear Legislative colleagues

Please oppose Measure 4 as presently written.

This legislation is not fair to cities which has sites ready within their urban growth boundaries.. The siting as envisioned in SB 4 even with sideboards, goes around long standing Oregon land use policy and practice. The illusory short term gain from a land grab near Hillsboro will enrich a few at the expense of farmland and the many Oregonians all over our state insisting on fairness.

Thank you
