My name is Saff Addams and I am writing to urge you to support HB 2134.

Unexpected major life changes happen to all of us at some point and many of us don't have the money to cover major additional fees to make it through these situations. It would be greatly beneficial to tenants to have as many protections in place from unnecessary additional charges in already hard situations. It's one more way we can help keep people from ending up in a worse situation than they started in when facing already hard times.
