

Submitter: Cynthia Sulaski

On Behalf  
Of:

Committee: Joint Committee On Ways and Means Subcommittee On  
Transportation and Economic Development

Measure: SB5511

I am a member of First Unitarian Church, which is a part of the Leaven Community Land and Housing Coalition - an interfaith collective of more than 50 faith communities across Oregon devoted to using our land to build diverse affordable housing. One hundred percent of our congregations additionally serve unhoused and unstably housed people through our outreach services that range from food pantries to rental support to advocacy. But there is simply not enough we can do to save our communities and neighbors from houselessness, hunger, and mental health crises. There is clearly an enormous systemic gap that needs an immediate systemic bridge. The Governor's budget is one such bridge, and we are strongly in support of this important and immediate solution to our crisis and encourage you to support it as well.
