Measure, Appointment or Topic: HB2305

Please oppose this bill as it will hurt so many families trying to gain home stability. There are so many single mothers not receiving support from the other parent and we single parents are struggling to make ends meet and meet the emotional needs of our children. I work three jobs and I still have a hard time coming up with money for food every month. Eviction practices should include more severe offenses such as violence, extreme filth and unwillingness to pay rent. Please be compassionate and put yourself in some of the shoes of these struggling families during these devastatingly hard economic times.
