Dear representative,

I urge you to oppose HB 2305. Expanding landlord's power to evict tenant with no right to cure will only exacerbate Oregon's homelessness crisis.

As a social worker who has worked directly with unhoused populations, I know first-hand that policies like this one, coupled with constantly rising rents, are a direct contributor to the rising rates of people who are chronically homeless.

Protecting renters from eviction while they struggle to make ends meet will help reduce barriers to housing and give renters a better chance at housing stability and financial stability.

Thank you for your time,
