Testimonies submitted for [HB 3414] are below:

The Governor continues to surround herself with the Housing lemmings with the unicellular brain thought they will solve the Housing crisis. The Housing solutions they profess are smoke and mirrors to masquerade their true intent to make more and more people dependent upon government.

[HB 3414] states, "...SECTION 3. (1) The Department of Land Conservation and Development and the Department of Consumer and Business Services shall enter into an interagency agreement to establish and administer the Housing Accountability and Production Office."

Housing inventories, Housing types, affordability for all, land available for housing within Urban Growth Boundaries (UGB) will consume precious GENERAL FUND dollars especially; when pristine neighborhoods hire armies of Attorneys to clog the courts with lawsuits asserting damages due to the diminution of property values (for starters).

\*Not discussed is the concept of "pulling in the Welcome mat." If you cannot afford to live in Oregon leave this place for somewhere you can afford to live in dignity and followed by the simultaneous defunding of all public contracted social services provided by the pernicious societal parasites referred to as, the "Non-profit and or Public Benefit Corporations."

\*Why should Oregon jeopardize the sustainable Resource Economy of [Agriculture, Forest products, Fisheries and Mining] to support residential housing projects which consume limited land and resources?

The statements above or even a slight variance thereof is probably not going to happen. So what's next? The systematic destruction of Oregon is already in progress as it de-evolves into a quasi-communist state where the voting majority is yes, dependent upon government and taxpayer dollar handouts.

Remember, "Equity is not Equality."

[HB 3414] is extremely bad legislation contrived by the Chief space cadet and her minions in Salem.

Let [HB 3414] die the ignominious death it deserves in committee.
