I oppose HB 3928 because you are trying to get around laws Gov. Tom McCall worked so hard on to protect Oregon's beautiful land. That's why so many are coming here. But they will ruin that which they came for! I want to protect our wildlife, having many struggles to survive in this over-populated human world. i want to protect our farmland where we need to grow our food, and the forested lands that provide us some of our oxygen and take up carbon dioxide. For some small monetary gains, you will despoil these lands forever just as many states before this have been ruined with constant development. No. You must not put a "foot in the door" with this bill so that eventually the whole state will look like so many others back east, over-populated.
