

Submitter: Paula Hamm  
On Behalf Of:  
Committee: Joint Committee On Semiconductors  
Measure: SB4

Please withdraw Wilsonville from lands to be considered for chip plant supersiting by removing the city from Section 10 of SB4. The proposed site is on foundational farmland without adequate sewer, water, storm water drainage, and transportation. It would cause increased traffic congestion in an already congested freeway. People still need to eat, and chipping away at farmland is not a long term benefit to humans or the environment. Withdraw Wilsonville from this ill-considered plan to build a chip plant on French Prairie foundational farmland.
