On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This bill is absolute insanity. We need to reclaim our public spaces for the safety of our children, elderly, handicapped, and the carless. We need to be focusing on getting people off the streets, not enabling their behavior and destroying the fabric of our cities. I understand this is well-meaning for the population who aren't abusing substances or bad actors. But we have to realize that these laws having unintended consequences of making Oregon even more desirable for drug trafficking, human trafficking, and drug addiction in our public life without consequence. We need to prioritize incentives to get the houseless off the streets and into housing or treatment.

THIS BILL IS INSANITY.
