Committee: House Committee On Climate, Energy, and Environment  
Measure, Appointment or HB3172  
Topic:

I believe this oversteps the boundaries of the role of fire marshal not to mention the potential for fraud. One could envision a scenario where the fire marshal would ID a fire risk and dole out state funds to a personal friend that wants to make improvements to his property. I don't like seeing the agency that IDs the problem also dole out funds for mitigation.
