Committee: House Committee On Housing and Homelessness

Measure: HB3501

This is going backwards. People in tents are living in addiction and squalor, and this bill will just promote and conserve these living conditions that affect homeless folks and nonhomeless alike. Portland is such a nice city, except for the meth problem which this bill will bolster. I'm so tired of being scared for my wellbeing by people who need help getting better not help staying in active addiction.
