

Submitter: Ann Abernathy  
On Behalf Of:  
Committee: Senate Committee On Natural Resources  
Measure: SB70

Please reconsider rejecting SB 70 which would open eastern Oregon's high value agriculture lands for housing subdivisions. The experience of states along the Colorado River are relevant. Oregon leaders wisely protected the limited supply of irreplaceable land and water that can grow crops. Houses can grow anywhere. Please "keep Oregon Oregon" and do not support SN 70. Thank you
