Life is Beautiful. We are in a most amazing moment in time where we can collectively use our platforms and spheres of influence to empower and change the environment of not only ourselves and our family, but that of my/our neighbor's! Our vote and buy in to invest in a bill that will send generational ripples of impact and sustainable change is laying before us RIGHT NOW!!!. I can't harp on yesterday or truly give hope for tomorrow, all I have is the breath of divine life I have right now to make the greatest impact on the world that til now.

All we have is now. Now we climb, now we create, now we love. All we have is now. The choice today to pass this landmark Housing Initiative and partner with an agency that has shown grit, tenacity and a proven track record for multi-generational achievement in education and social development is the most impactful step that could be taken to sustainable change. Thank You,

Charles B.A. Bishop
