

NORTHWEST  
PILOT PROJECT

HOUSING SENIORS | CREATING HOPE | PILOTING CHANGE

June 21, 2023

Members of the House Committee on Rules  
Oregon State Legislature  
900 Court Street NE  
Salem, OR 97301

**RE: Support for SB 611**

Chair Fahey, Vice-Chairs Breese-Iverson and Kropf, and Members of the Committee:

Thank you for the opportunity to share testimony, on behalf of Northwest Pilot Project, in strong support of SB 611. This bill will serve as a critical homelessness prevention strategy to protect seniors, families, individuals, and communities across the state from extreme rent increases and displacement.

Northwest Pilot Project (NWPP) is a social service agency with over five decades of experience in providing housing stabilization services to low and very low-income older adults, age 55 and over, experiencing or at risk of homelessness in Multnomah County.

SB 611 is a reasonable measure that will prevent extreme rent increases and displacements, while allowing landlords to take inflation into account and preserving the current law's ability to reset rents to market rates in between tenancies. New properties continue to be exempt from the law, ensuring there is no impact on new development.

According to the U.S. Government Accountability Office, every \$100 increase in community median rent equals a 9% increase in local homelessness.<sup>1</sup> In Oregon, high-rent displacement is reaching a crisis level: more than 86% of court evictions are for non-payment of rent.<sup>2</sup> At a time when Oregon is experiencing some of the highest rates of homelessness in the nation – and seniors age 65 and older

are the fastest growing age group of people experiencing homelessness<sup>3</sup> – we cannot afford to let unreasonable rent increases go unchecked.

As service providers, the NWPP team is constantly responding to a rapidly growing number of low-income older adults who are just one benefit payment, one health crisis, one rent increase, or one emergency away from homelessness. Prior to the passage of SB 608 and the implementation of the City of Portland's Relocation Ordinance, NWPP staff were receiving approximately 20-30 calls a month from community members requesting support due to large rent increases and no-cause evictions. The enactment of statewide and local tenant protections resulted in these types of calls dramatically decreasing. With these tenant protections in place, NWPP staff are able to dedicate more resources and time towards supporting our most vulnerable clients – those experiencing or at risk of homelessness.

Unfortunately, the 2023 rental rate increase maximum of 14.6% will undo the pivotal rent control policies implemented over the past few years, jeopardizing the stability of countless households and greatly hindering service providers' ability to respond to Oregon's homelessness crisis.

SB 611 is an action that the legislature can take now to have an immediate impact on our state's housing crisis, as we also work on the longer term solutions of increasing supply and providing support to rehouse our currently homeless neighbors. We strongly encourage your support of SB 611. Thank you for your time and consideration.

Sincerely,

Laura Golino de Lovato  
Executive Director  
Northwest Pilot Project
