

Submitter: Laura Iversen  
On Behalf Of:  
Committee: Senate Committee On Housing and Development  
Measure, Appointment or Topic: HB3054

As a medical social worker in Portland for the last decade, I've seen the devastation caused to people living in these situations when they are priced out by space rent increases.

I wish increases could be limited to the COLA% increase of social security, because that would offer the most protection for people who have the least rental mobility in our communities.

That said, this is a great step to offering these tenants some rental protections beyond what they currently have. Thank you for considering support for this measure!
