Committee: Senate Committee On Housing and Development  
Measure, Appointment or Topic: SB974

I just submitted a report/White Paper from Walsh Construction on Cost-Efficient Design for Affordable Housing. This emphasizes the importance of DESIGN in making good use of funds, good quality housing, and why design is not about aesthetics but function, form, durability, materials, alignment floor plates, replicable components, etc. I was one of the people 4 people who were waiting but not given the chance to testify on Monday due to the postponement. Again, I strongly oppose removal of Design Review.
