**Re: Support for SB 722**

Chair Pham, Vice-Chair Anderson, and Members of the Committee:

I am writing in strong support of SB 722, which will help prevent displacement and extreme rent spikes by extending coverage of our state's rent stabilization statutes, and by prohibiting the use of price-fixing software to inflate rents.

Housing is a human basic need and Oregonians are struggling to keep up with the cost of living, especially the cost of housing. I am engaged with many working families that pay closer to 60% of their incomes for rent and are one emergency or car break-down away from not being able to pay their rent and afford food or utilities. So many low-income Oregonians have to choose which bills to pay and struggle through the next month of the same.

We must support rent stabilization and keep Oregonians housed SB 722 is the only policy tool on the table this session that would provide immediate and measurable protection for Oregonians suffering due to rent spikes as a result of our state's affordable housing crisis.

The bill reduces the current 15 year exemption for new construction from our statewide rent stabilization statute down to 7 years. This change would provide reasonable rent stabilization protection for an additional 40,000 housing units and between 80,000 to 100,000 Oregonians. This proposed change strikes a balance between continuing to encourage new units to come into the market and ensuring that those units do not contribute to long-term gentrification and price inflation.

The bill also amends the Landlord-Tenant Act to prohibit the use of price-fixing AI software to artificially inflate rents. These kinds of products are the subject of national attention and concern, and Oregon has joined a federal lawsuit against this practice. Many local jurisdictions are taking steps to curtail this practice. Price fixing has no place in Oregon, and we cannot afford to allow this practice to exacerbate our housing crisis.

With the unprecedented amount of evictions every month in Oregon communities we must be mindful of maintaining the balance of stable affordable housing and continued economic growth. This can be achieved and SB 722 provides that platform.

For all of these reasons, I urge your strong support of this bill. Thank you for the opportunity to submit testimony and for your service to Oregon communities.

Sincerely,

Erin Meechan
