

Submitter: Walt Mintkeski  
On Behalf Of:  
Committee: House Committee On Housing  
Measure: HB4118

I urge that the Committee vote NO on HB 4118 and the -1 amendment.

The original HB 4118 was well-intentioned: to provide more “workforce” housing. However, it unnecessarily pits housing and farmland against one another. HB 4118 would provide that a private landowner may request that a city expand its urban growth boundary (UGB) into a city’s urban reserve, by up to 100 acres for “workforce housing” and/or “workforce commercial” uses without going through the land use planning process. This would circumvent the public process by which urban reserves were designated; it would require cities to set up new, expensive structures to enforce “work force housing” restrictions; and it has unrealistic infrastructure provisions, among other things. Therefore please vote No on HB 4118 and the -1 amendment.
