

My name is Jacque Duyck Jones and I raise Kotata Blackberries and Blueberries, grass seed and grains in Washington County. My Dad (Larry Duyck) and I own Duyck Family Farm LLC. Our core mission is to continue to be a sustainable family farm for another hundred years, providing high quality commodities for others across the nation and world to enjoy.

Allowing homes on farmland that are not related to farming is fundamentally contrary to Oregon's land use program and sets a terrible precedent.

Please show your value and respect of Oregon agriculture by opposing this bill!
