Measure: HB3501

This bill is simply ridiculous. Not only would it create some sort of goofy constitutional right, but it essentially allows a private taking of public property for private purposes. Most important, it does not really help the homeless people it is hoping to help. Rather, it enables self-destructive behavior that makes their lives worse. I appreciate the supporters believe strongly that they are acting out of compassion, but their misguided compassion is actually preventing a solution of the homeless problem.
