Committee: House Committee On Education  
Measure: HB2895

As a school counselor it is extremely challenging to get students into the ideal schedule to receive the support that they truly need to be successful and graduate. I often have to select which students will get the spots in our push in classes to get support from a co-teaching Special Educator. We don't have nearly enough Special Educators to meet our student's needs and also support teachers with information about their IEP.
