

Submitter: Greg Brown  
On Behalf Of:  
Committee: Senate Committee On Housing and Development  
Measure: SB1537

Oregon needs to quit spending money and changing land use rules. Government created the very problem with high taxes and too many regulations and is now trying to spend its way out it which will just makes things worse. Oregon is paying people to be homeless, they are enacting higher fees on everything; go buy a new vehicle and in shock find out how much you will pay for privilege and cat taxes, nothing but a hidden sales tax. Return the new revenue to taxpayers which will do far more than you passing another bill.
